The Morgan State University Entrepreneurial Development & Assistance Center (MSU EDAC) in Baltimore, Maryland launched the Women Veteran Entrepreneurs of Color (WVE) Initiative of the Women Owned and Managed Enterprise Network (WOMEN) platform to meet the growing demand of Black and Brown women veteran, Black and Brown military spouses and Black and Brown women seeking contracting opportunities with government agencies and the private sector. In addition to business services, knowledge as well as access to resources to develop and retain competitive enterprises are offered to women business owners and managers. Thanks to funding from Truist, the leaders of this initiative as well as our partners have the means to directly support the businesses of the women who have served our country, and we strive to function as powerful liaisons of knowledge, network and resources between their businesses and their inevitable success.

NOTE: ALL Opportunities for Small Businesses, **EXCEPT** for the Annual Conference and Webinars, are directed specifically toward Maryland-based Women Veterans of Color and Military Spouses and Women of Color both with entrepreneurial interests related to government and corporate contracting.
